

Single Phase kWh Electricity Meter with Cable

Easycount 1

The Easycount1 is an electricity meter embedded in a special compound sealant housing. This protects the meter from humidity, shock and general outdoor environments. The Easycount1 is available with CEE- or SCHUKO-connectors. The electricity meter has been specially developed to give high accuracy readings in the harsh environments, i.e. marinas and campsites.

Technical specifications

Voltage: Direct input:	230 VAC +10% / -15%
Current: Direct	5(32) A
Frequency:	50Hz
Power consumption:	0,5W / 4,5VA
AC Voltage withstand:	2KV für 1 Minute
Impulse voltage withstand:	4KV-1,2 S waveform
Temperature range:	-20 - +50°C
Case:	ABS
Accuracy class:	1
Protection:	IP54

Article number:	Explanation:	Price:
460516ZC	with 16A CEE-connector, not approved	€ 79,00
460516ZCB	with 16A CEE-connector, approved	€ 92,00
460516ZS	with Schuko-connectors / not approved	€ 79,00
460516ZSB	with Schuko-connectors / approved	€ 92,00
